Moloko **Mokgehle**

Profile Summary

Analytical Mathematical Sciences graduate with experience in Python-driven data manipulation and machine learning. Proven ability to merge complex datasets and deliver actionable insights. My goal is growth; to keep on learning, take on new challenges, and make positive impact in every role that I take.

Personal Information

Location: **Cape Town, South Africa**
Availability: **Immediately**
Languages: **English**

Skills

- SQL, Excel, Power BI, Basic Statistics, Python
- Pandas, Numpy, Matplotlib, Seaborn
- Microsoft Excel, MS Word,MS PowerPoint
- JavaScript, HTML, CSS, GitHub
- Communication and team collaboration

Experience

Data analyst at *Siyaphumelela Projects.* **2025.07–2025.12**

◇ Conducted research project for factors that have an effect in student completion time for Diploma in Business and Information Administration

◇ Merged three students datasets into one dataframe using pandas library from Python in Jupyter Notebook. Performed inspection and feature engineering on dataframe to understand data.

◇ Conducted exploratory data analysis to identify patterns, trends, and insights using machine learning and data visualization techniques.

◇ Ran three machine learning models (XGBoost, Random Forest, and Logistic Regression) and tuned all three models for maximizing their prediction. Compared models using appropriate metrics, XGBoost was the best model.

Research Intern at *Tamarind Hill Press.* **2024.07–2024.12**

◇ Enrolled as WIL, performed and gained research skills under the supervision of the company.

◇ Implemented qualitative research methods – accomplished detailed literature synthesis as measured by project deliverables, by conducting structured online research and analysis.

◇ Developed research reports using Microsoft Office that led to improved data presentation and clarity.

◇ Solved data organization challenges with collaborative tools (Google Drive & Docs), leading to smoother teamwork and version control.

Volunteer at *Township Schools.* **2024.07-2024.12**

◇ Assisted matric learners with university and funding applications at different high schools at Cape Town.

◇ Gained experience with working with diverse backgrounds and multilingual learners, enabling skills teamwork and communication skills.

◇ Created a tracking system in Excel - Captured student details for follow-up to ensure they could complete NSFAS applications later.

Education

Postgraduate Diploma in Mathematical Sciences **In progress.**
Cape Peninsula University of Technology.

Advanced Diploma in Mathematical Sciences **2025–2025**
Cape Peninsula University of Technology.

Diploma in Mathematical Sciences **2022–2024**
Cape Peninsula University of Technology.

Certifications

◇ Learning Power BI Desktop, *LinkedIn Learning*
◇ HTML, CSS, and JavaScript: Building the Web, *LinkedIn Learning*
